India's history and culture is ancient and dynamic, spanning back to the beginning of human civilization. Beginning with a mysterious culture along the Indus River and in farming communities in the southern lands of India, the history of India is punctuated by constant integration with migrating peoples and with the diverse cultures that surround the country. Placed in the center of Asia, history in India is a crossroads of cultures from China to Europe, as well as the most significant Asian connection with the cultures of Africa. The Historical Dictionary of Ancient India provides information ranging from the earliest Paleolithic cultures in the Indian subcontinent to 1000 CE. The ancient history of this country is related in this book through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on rulers, bureaucrats, ancient societies, religion, gods, and philosophical ideas.

God created animals with everything they needed. To be content and succeed, He designed homes perfectly suited to each one. However, the animals were unhappy with the places that God had made for them and eventually gave into the insecurities and fears they all felt. Owl was frightened of the dark, Mountain Goat became faint-hearted as he looked down from the narrow mountain ledge. Duck panicked every time she neared the water. Camel detested the hot, dry wind and Penguin hated the icy cold. Through whimsical illustrations and creative prose, " God Gave Me Everything I Need To Be Me! " encourages self acceptance, individuality and appreciation as the animals finally realize God had given them exactly what each one required to make them complete.
