I take the SSCP on Monday. I've done a few practice tests and I'm still hovering around 70% on 3 of the domains. Any advice on how to narrow my studies the next couple days to prepare? I have the official book, study guide, and practice tests. I also have the LinkedIn videos and the AIO book. I'm super nervous, don't feel super ready.

While none of the stories have happened, there is no reason why they could not. You could argue it provides a road map for criminal hackers, but I say it does something else: it provides a glimpse into the creative minds of some of today's best hackers, and even the best hackers will tell you that the game is a mental one." -- from the Foreword to the first Stealing the Network book, How to Own the Box, Jeff Moss, Founder & Director, Black Hat, Inc. and Founder of DEFCON For the very first time the complete Stealing the Network epic is available in an enormous, over 1000 page volume complete with the final chapter of the saga and a DVD filled with behind the scenes video footage! All of the stories and tech from: How to Own the Box How to Own a Continent How to Own an Identity How to Own a Shadow Plus: Finally - find out how the story ends! The final chapter is here! A DVD full of behind the scenes stories and insider info about the making of these cult classics! * Now for the first time the entire series is one 1000+ page book * The DVD contains 20 minutes of behind the scenes footage * Readers will finally learn the fate of "Knuth" in the much anticipated Final Chapter
